That's why we make it a priority to provide resources, such as education and support groups, for caregivers of ALS patients, and we do our best to alleviate the burden of ALS for patients and their families. Caregiving Statistics

For Caregivers | The ALS Association

Concern for the ALS patient often causes the caregiver to overlook her/his own needs – eating properly, getting enough rest, taking time to pursue one's own interests. Emotional needs are sometimes more difficult to spot and address. Caregivers may experience sadness at the patient's deterioration, guilt for not being perfect,
