(6) Some are Adenium obesum, multiflorum, swazicum, boehmianum, oleifolium, somalense, crispum, arabicum, socotranum, tanzania and oman.

**Adenium | Spektrum Culture**

Desert Rose 'Red' (Adenium obesum) Grown true from seed as a stabilized red, this strain of Desert Rose produces consistent deep red flowers with a well-formed caudex. They love it sunny, dry and warm, typical of their home in East Africa, and tolerate neglectful watering.

**Adenium Desert Rose Red: Logee's Tropical Plants**

The desert rose, Adenium obesum, is a shrubby succulent with glossy green leaves and red-pink flowers. It has a widespread native distribution in Africa and the Arabian Peninsula, so in the UK it needs to be grown under glass all year. It's a popular choice for bonsai, in part owing to the swollen caudex, which stores water.
