In some cases, you may also find free books that are not public domain. Not all free books are copyright free. There are other reasons publishers may choose to make a book free, such as for a promotion or because the author/publisher just wants to get the information in front of an audience. Here's how to find free books (both public domain and otherwise) through Google Books.

Writing down thoughts exactly as they enter your head is one of the best ways to simulate this. Speaking into a voice recorder on your phone is the next best thing. For both cases, try to speak for at least half an hour at a stretch. Then, read or play it back as if you were listening to somebody else's thoughts.
