Malta Prehistory And Temples Maltas

The Megalithic Temples of Malta are several prehistoric temples, some of which are UNESCO World Heritage Sites, built during three distinct periods approximately between 3600 BC and 2500 BC on the island country of Malta. They had been claimed as the oldest free-standing structures on Earth until the discovery of Göbekli Tepe. Archaeologists believe that these megalithic complexes are the result of local innovations in a process of cultural evolution. This led to the building of several temples

Megalithic Temples of Malta - Wikipedia

Malta's earliest stone structures predate Stonehenge and the Pyramids and historians still don't know what happened to the civilization that produced them. They seem to have virtually disappeared from history without any indication of their fate. So far, nobody has found mass graves or other indicators of mass famine, war, or disease.
