Question: Write notes on biota in the lentic ecosystem. Lentic ecosystem: An ecosystem refers to the community of interaction of living and non-living components of the earth.

Solved: Write notes on biota in the lentic ... - Study.com

Ecological succession is a fundamental principle in ecology. It is the change in species and habitat structure that an ecosystem undergoes over time. Plant succession depends on management. For example, with no management—fire, mowing or grazing—on the Reservation since 1948, the formerly open grasslands and fields have given way to woodland.

A case study in ecological succession
