The Yaesu FT-101 series transceivers, produced in 1970-1978 were a very good alternative for the very expensive American made receivers and transmitters of the time, they were full of useful options, for which you had to pay much \$\$\$ extra (if available) in other ham equipment. Build like a battleship, with a modular construction, it was easy to repair, and the big numbers which are still around, prove the sound work of the Yaesu engineers at the time.

The 1980 FT-101ZD type with the WARC amateur bands added (first ZD models did not have WARC bands), was the same as the FT101Z but with digital readout and with selectable AM or FM included. This model was produced until 1985 and the last of the Yaesu FT-101 series which ceased production in 1986. History and lore. Because critical circuit designs were kept to a manageable size, hams had no ...
